Good Friday Service

The morning of April 18th at 10:30, join us for a Good Friday Service led by Chaplain Kevin in the chapel. Let's celebrate this wonderful season!

Gardening

If you want to participate in the community garden in the courtyard this year, please see Tori to sign up. You will be given a specific area in our garden. **The date to begin planting in the community garden is typically mid-May, but Tori will announce the official date at the April Open Floor.** The garden is a community space, so all gardening plans must be approved through Tori.

Famous Firsts: Earth Day

Protect our planet. That was the simple message of the estimated 20 million people across the nation who took part in the first Earth Day, April 22, 1970. The national day focusing on the environment was the idea of U.S. Sen. Gaylord Nelson of Wisconsin, and today, it is an annual worldwide observance with nearly 200 countries participating.

Keep Kitties Safe From Lilies

Lilies are lovely spring flowers, but keep them out of your home if you have cats. All parts of the plant are dangerously toxic to cats, who can get sick even from licking pollen off their fur or drinking from a flower vase. This warning includes all members of the lily and daylily family.

Chasing Rainbows

A rainbow is one of the most wondrous sights in nature. Here's how you can spot one!

Rainbows are caused by light shining through water, so the best time to look for them is during a break in a rainstorm, when the sun is peeking out. Early mornings and late afternoons are better. Look for the sun in the sky and then turn your back to it—rainbows only appear across from the sun.

The sky beneath a rainbow is brighter than the sky above it, so if you see a bright patch of sky, look closely. There may be a faint rainbow! When a rainbow itself is especially vibrant, there may be a double rainbow reflected from the top of the arc. The colors of this rainbow will be in reverse.
